

## Ultra 4K Lubricant

Ultra 4K is an engineered synthetic coolant formulated to provide optimum reliability for rotary screw air compressors. Ultra 4K's unique formulation helps extend your compressor life and increases total system efficiency versus non-Ingersoll Rand coolants. With a recommended 4,000 hours of service between change-out under normal operating conditions, it helps align your lubricant to your operating needs.

### Features

- **With up to 4,000 hours of run time**, this synthetic lubricant aligns to your operating needs
- **Non-foaming performance** reduces carryover to improve efficiency and minimize lubricant contamination in your system
- **Higher thermal conductivity** than poly-alpha-olefins (PAOs) and mineral oils provides consistent viscosity even in a high-temperature environment
- **Protects against varnish and deposits** to provide wear protection to your trusted equipment
- **High flash point of 248°C (478°F)** enhances operational safety
- **Pour point of -39°C (-38°F)** is safe for all weather

## Model Specifications

Bottle Size	Part #	Viscosity Index	ISO Viscosity Grade	Run Hours	Base Stock
5 Liter Bottle	47703841	120	46	4000	Synthetic
20 Liter Pail	47696743	120	46	4000	Synthetic

About Ingersoll Rand Inc. Ingersoll Rand Inc. (NYSE:IR), driven by an entrepreneurial spirit and ownership mindset, is dedicated to helping make life better for our employees, customers and communities. Customers lean on us for our technology-driven excellence in mission-critical flow creation and industrial solutions across 40+ respected brands where our products and services excel in the most complex and harsh conditions. Our employees develop customers for life through their daily commitment to expertise, productivity and efficiency. For more information, visit [www.IRCO.com](http://www.IRCO.com).
